WHY A CHALLENGE??

In light of the increase of online bullying, Youth Internships at Community Access Sites (YI @ CAS) has decided to develop a province wide initiative to combat cyberbullying. We would like to challenge all networks to create a 'Bully-Free Zone' at their Community Access Site. To do this we are encouraging all sites to create a 'Bully-Free Zone' poster containing resources and information about cyberbullying. Posters will be featured on the CyberCamp Wiki as well as the Facebook page, and should be physically displayed at each site. Our goal is to make every site in each Network a Bully-Free Zone.

For more information contact your Regional Co-ordinator or go to <https://capstats.ocl.net>
